Rinse thoroughly and dry with a soft cloth. No waxes are needed. More information regarding the care and maintenance of Crossville products is available at CrossvilleInc.com.

Wet area use for Mosaics

Crossville® produces the Argent 2.0 2x2 and 4x4 Random Mosaics with the Cross-Sheen (UPS) finish. The ANSI A326.3 wet Dynamic COF of Argent 2.0 is ≥ 0.50 . Their small sizes ensure frequent grout joints which provides traction and drainage. Crossville cannot control situations involving incorrect installation, improper slope to the drain for elimination of standing water and poor surface cleaning.
